Emergency Quick Reference Guide

- ⇒ Upon the arrival of three (3) or more members, the Community Control Group (CCG) may initiate its function.
- ⇒ Ensure that all Community Departments have been notified and either activated or placed on standby. Each CCG member is responsible for their own Department.
- ⇒ The Mayor must inform the Province of Ontario that the Town of Perth has declared an emergency, and specify the nature of the emergency situation. The provision of a return contact number is required for communications purposes. The call is made to the Provincial Emergency Operation Centre (PEOC). The number to use for this purpose is 1-866-314-0472.

Declaration of Local State of Emergency should be faxed to the PEOC, as soon as it is convenient; the Fax number for this purpose is 1-416-314-0474.
- ⇒ Turn to individual responsibilities within the Plan. Provide input and assistance as required.
- ⇒ Each member of the CCG will report and respond to immediate needs in accordance with the Operations Cycle format.

Introduction

The Emergency Plan for the Town of Perth has been developed to reflect the public safety requirements of our community. The effective use and maintenance of this Plan is reliant upon all concerned being aware of its provisions and being prepared to fulfill their roles and responsibilities in the event of an emergency. Responsible individuals are expected to participate in emergency training, and exercises which will assist them in the fulfillment of their roles accordingly.

The heads of departments and agencies are expected to develop their own internal notification lists, procedures and contingency plans to fulfill their departmental or agency responsibilities.

Together we work to ensure that our community is prepared to respond to an emergency in the most effective manner possible.

Aim

The Aim of this Plan is to protect the health, safety, welfare and property of our citizens, from the effects of a natural, technological or human caused emergency.

Authority

This Plan has been developed and will be implemented in accordance with the *Emergency Management and Civil Protection Act*, which is the Provincial statute under which all emergency management activities are conducted in the Province of Ontario.

- 4.(1) “The head of council of a municipality may declare that an emergency exists in the municipality or in any part thereof and may take such action and make such orders as he or she considers necessary and are not contrary to law to implement the emergency plan of the municipality and to protect property and the health, safety and welfare of the inhabitants of the emergency area.”**

This Emergency Plan and its elements has been issued under the authority of The Town of Perth By-law No. 2004-3573, as amended. A copy of the By-law is available for inspection at the Clerk’s Office.

Definition of an Emergency

- 1. “emergency” means a situation or an impending situation that constitutes a danger of major proportions that could result in serious harm to persons or substantial damage to property and that is caused by the forces of nature, a disease or other health risk, an accident or an act whether intentional or otherwise.”**

Action Prior to Declaration

When an emergency exists but has not yet been declared to exist, community employees may take such action(s) under this Emergency Response Plan, as may be required, to protect property and the health, safety and welfare of the Town of Perth.

Requests for Outside Assistance

Assistance may be requested from the County of Lanark at any time by contacting the County Warden or the County Chief Administrative Officer (CAO). The request shall NOT be deemed to be a request that the County assume authority and control of the emergency.

Assistance may also be requested from the Province of Ontario at any time without any loss of control or authority. Any request for assistance should be made by contacting the Office of the Fire Marshal and Emergency Management (OFMEM).

The confidential Emergency Notification Contact List, including contact numbers for requesting assistance, is contained in the Emergency Response Procedures.

Municipal Freedom of Information and Protection of Privacy

Any personal information collected under the authority of this Plan shall be used solely for the purpose of planning, preparing and conducting response to emergencies as defined with the *Emergency Management and Civil Protection Act*, and the release of information under this Plan shall be made in conformity with the *Municipal Freedom of Information and Protection of Privacy Act* (MFIPPA).

Plan Maintenance

The Plan was written in 2004 and it is essential that the Plan and Emergency Response Procedures be kept current and viable by adherence to a maintenance schedule. Responsibility for the Plan and Procedures being kept up to date rests with the Community Emergency Management Coordinator (CEMC) who may delegate tasks accordingly.

The confidential emergency telephone numbers will be reviewed on an annual basis.

1. The notification system will be tested annually.
2. The Plan will be exercised once every year as a minimum requirement.
3. The Community Control Group (CCG) and Support Staff shall receive training and participate in an exercise, once every year as a minimum requirement.
4. The Vital Services and/or Local Services Directory, included in the Procedures, should be updated annually.
5. The CEMC will determine the schedule under which the maintenance activities will be performed.
6. The CEMC may update, correct or amend any information contained within the Emergency Response Procedures on an as required basis.

(= complete copy of Plan with Emergency Response Procedures)*

It is understood that Community Control Group (CCG) members are not expected to carry a copy of the Perth Emergency Response Plan with them at all times. Complete copies of the Town's Emergency Response Plan including Emergency Response Procedures will be used primarily for training or Emergency response. Since the nature of an Emergency notification normally requires an immediate response to the Municipal Emergency Operations Centre (EOC), therefore complete copies, including all Emergency Response Procedures, will be kept at the EOC for issue during training or an actual municipal emergency. Every member of the primary Community Control Group (CCG) will be issued a copy of the Emergency Response Plan.

Community Control Group (CCG) – Membership & Implementation (cont'd)

IMPLEMENTATION:

Any member of the Community Control Group (CCG) may request, through the Chief Administration Officer (CAO), (or the Community Emergency Management Coordinator (CEMC), in the absence of the CAO) that the Emergency Plan be implemented.

It is the responsibility of the agency that is first at the scene of an emergency to decide whether the Emergency Response Plan should be implemented. If the size or seriousness of the emergency is beyond the capability or responsibility of that agency, then the Emergency Response Plan will be activated. The Emergency Response Plan may be implemented in whole, or in part, based on conditions at the site or severity of the situation.

The CAO will immediately contact Team One (1) on the Community Control Group (CCG) Fan-Out Dispatch List and notify the Mayor. The remaining CCG members will be contacted by the Team Leads as set out in the Fan-Out list. Notification lists and associated procedures are located in the Emergency Response Procedures.

2.1

Emergency Operations Centre (EOC) Procedures

The Emergency Operations Centre (EOC) has both a primary and a secondary or alternate location. During the notification process, direction as to which location members of the Community Control Group (CCG) will report to will be given. For example, members will be told that *“This is an Emergency Plan activation and that they should report to the primary EOC immediately”*. The primary and secondary locations are geographically separated so that if one or the other is endangered or rendered non-functional as a result of the emergency situation the other should be safe and operational.

Upon receiving notification the Chief Administrative Officer (CAO) / Operations Officer will contact the Community Emergency Management Coordinator (CEMC) who has been assigned the task of setting up the Emergency Operations Centre (EOC). The EOC will be set up and operational within one (1) hour of activation. The Operations Officer will supervise the set up and ensure operational viability.

Upon arrival at the EOC, each CCG member/designate will:

- a. Sign In.
- b. Check telephone/communications devices.
- c. Obtain an Emergency Management Notebook.
- d. Contact their own agency and obtain a status report.
- e. Participate in the initial briefing.
- f. Participate in planning initial response/decision making process.
- g. Pass CCG decisions on to member’s agencies/areas of responsibility.
- h. Continue participation in the EOC Operations Cycle.

Upon leaving the EOC, each CCG member will;

- a. Conduct a hand over with the person relieving them.
- b. Sign out on the location board indicating where they can be reached.

Once the initial response is established, routines are put into place by the Operations Officer. The CCG functions most efficiently on a system known as an Operations Cycle.

2.2**Operations Cycle**

An Operations Cycle is how the Community Control Group (CCG) manages overall emergency operations. CCG members will come together usually around a planning board or map at which time they will in turn report their agencies' status to the Mayor and Operations Officer. It is essential that every member, covering each area of responsibility, be heard from during this process. The Control Group is a team, and the actions taken by one (1), or the lack of action by one (1), may have a significant impact upon operations.

The round table discussion should include problems, questions, resources requests and any other relevant information so that timely informed decisions can be made as a group. Once the meeting is completed, the members should contact their agencies' and pass on any relevant information or directives that come out of the Community Control Group meeting. The frequency of the meetings are determined by the Operations Officer in conjunction with the Mayor, but should reflect the pace of the emergency and occur on a scheduled basis which may be adjusted accordingly.

During the period after the meeting and dissemination of information, members will be in the process of gathering information and preparing for the next scheduled meeting. CCG members use this time to follow up and ensure CCG decisions are being implemented. Each member is responsible for informing their respective agency of the schedule for CCG meetings. No calls are to interrupt the proceedings. All calls must occur prior to or after the formal meetings of the Community Control Group.

It is essential that the Emergency Operations Centre (EOC) is comfortable, has good communications and is secure from unnecessary distractions. Only CCG members, and support staff should have access to the EOC. No media are allowed into the EOC, nor is anyone who has not been authorized by the Operations Officer.

2.3 **Community Control Group (CCG) – Responsibilities and Procedures**

The Community Control Group (CCG) are responsible for the following:

1. Implementing the Emergency Plan in whole or in part to respond to an impending, potential, or existing emergency.
2. Coordination and direction of Community resources used to mitigate the effects of an emergency.
