100%

Note: Sewer Charge is calculated as a Percentage of the total of Water Consumption+ Water Delivery Charge.

MISCELLANEOUS CHARGES

Sprinklers			
(based on size)	Size (inches)		
	3"	\$ 35.69	per month, pro-rated
	4"	\$ 59.51	per month, pro-rated
	6"	\$ 99.23	per month, pro-rated
	8"	\$165.07	per month, pro-rated
	10"	\$274.37	per month, pro-rated
Hydrant Rental	each	\$ 93.70	per month, pro-rated

Sewer Flat Rate (no water account) \$518.59 per year

Note: Sewer flat rate applies for those residential accounts connected to municipal sewer but not water services

Sewer Collection Rate (extraneous flows) \$4.92 per 1000 Imp Gallons

Note: Sewer Collection Rate applies for non-residential sewerage resulting from private water sources (e.g. ground-source wells), to be metered either by proxy from well records or directly through sewer flow monitoring, at the discretion of the Director of Environmental Services or designate.

Process Cooling Water Surcharge 150% of Water Consumption Charge

Note: Process Cooling Water Surcharge applies for non-residential sewerage resulting from process cooling water, to be metered directly through on-site sub-metering.

Bulk Water Sales (at WTP or via hydrant) \$12.06 per 1000 Imp Gallons

Note: Water sales are available by bulk fill at the Water Treatment Plant (WTP) or via hydrant hook up at the discretion of the Director of Environmental Services or designate.
